

# SPALDING SPECIFICATIONS

DATE: 12-31-08

**MODEL NUMBER:** 408048

**DESCRIPTION:** Spalding Antenna Package

**GENERAL DIMENSIONS:** This package includes two red and white striped antenna assemblies. Typical volleyball antennae fit nets in the range of 36" to 1 meter (39 3/8") in width; Spalding's antenna will adjust to fit nets measuring anywhere from 35.5" to 41".

**CONSTRUCTION:** Spalding's antenna is a 3/8" (9.5 mm) diameter fiberglass rod with alternating red and white bands above the top clamp; solid white coloring below the top clamp. The antenna clamps are permanently attached to the antenna to ensure no loss of parts and are constructed of super tough Nylon 66 material. The antenna assemblies screw onto the top and bottom of the net to stay in place. The top clamp is tightened on the net using a twist grip made from 30% glass filled polyurethane while the bottom clamp is tightened on the net using a screw that is turned with your fingers.

**SHIPPING INFORMATION:**

1 package - 4 lb (1.8 kg), 2" x 3" x 72" (51 mm x 76 mm x 1828 mm), 0.2 CF
