

# SPALDING SPECIFICATIONS

DATE: 02/25/2013

**MODEL NUMBER:** 438274

**DESCRIPTION:** Spalding Light Steel Volleyball Winch and Non-Winch Uprights

**SPECIFICATIONS:** Spalding Portable Volleyball Winch and Non-Winch Uprights are designed to be used with 3" floor sleeves as well as the Spalding T-Base. The uprights can be adjusted for the regulation net heights for men, women or juniors, or any height in between for both of the setups mentioned above. This system can also be adjusted for the regulation "girls 10 and under" height but only with the floor sleeves. These uprights are comprised of the base and the slide. They have the assist springs that make the height adjustments quick and easy.

**MODEL NUMBER:** 438274

**DESCRIPTION:** Spalding Light Steel Volleyball Winch and Non-Winch Uprights

The bases of the uprights are made of 3" OD x 5/32" wall high quality steel tubing. They are 48-1/2" long and have a bright chrome finish for durability. The upright bases incorporate printed labels that indicate the proper height settings for the uprights. The marks on the label are calibrated to bring a correctly tensioned net to the regulation height. The bottoms of the bases have plastic caps that will protect the floor from being scratched when the uprights are set on it.

The main bodies of the slides are made of 3-1/4" OD x 13 gauge wall high quality steel tubing. The winch and the non-winch slides are 73-7/8" and 74-3/16" overall long respectively and have a durable baked powder coat finish. The winch slide has the worm gear winch that is mounted in a fixed position and used for tensioning the net. A "D" ring has been sewn into the winch strap so that the snap hook can be attached and the strap lightly tensioned for storage. The spin locks assemblies are used for the height adjustments. The winch slide has two half-rings welded near the bottom for easy attachment of the net's bottom cord. The non-winch slide has four welded half-rings for attaching both the top and the bottom net's cords.

Spalding Net Antenna (408048) is a part of this package.

## **SHIPPING INFORMATION:**

1 package 6" x 10" x 97", 3.4 cf, 52 lb

1 package 4" x 6" x 97", 1.4 cf, 47 lb
