**SPALDING® FLEX BREAKAWAY GOALS**

- **Flex breakaway goals** are spring loaded but do not include the positive lock mechanism, therefore there is no force threshold required to move the rim. Increasing the force load will cause the rim to travel farther away from play position. Once the force is released, the rim will automatically return to play position.

**SLAM-DUNK® PRECISION 180 GOAL**
- Official goal of the 2011 Men’s and Women’s Final Four
- High performance goal with 180-degree flex breakaway action for collegiate play
- Adjustable reflex mechanism maintains NCAA rebound elasticity requirements
- Meets NCAA specifications
- Anti-whip net and mounting hardware included
- Seven-year warranty

413-577 Slam-Dunk® Precision 180 Goal w/5” x 5” Mounting Pattern

413-574 Slam-Dunk® Precision 180sb Goal w/5” x 4” Mounting Pattern

411-528 Slammer Competitor Goal w/Universal Mounting Pattern (Easy Glide #2 net system)

- All Spalding goals are electrostatically powder coated orange
- Goals not intended for outdoor use

SPALDING® POSITIVE LOCK BREAKAWAY GOALS - Positive Lock goals are spring loaded to withstand a specific amount of force applied to the rim before they automatically release and pivot downward. The amount of force required to release the goal is adjustable. Once the force is removed, the rim will return to play position.

**ARENA® 180 GOAL**
- Official goal of the NBA
- High performance goal with 180-degree positive lock breakaway action for professional and collegiate play
- Factory calibrated breakaway meets NBA rebound elasticity requirements

SPALDING® DIVIDER curtains

Fold up
• Offers a clean way to divide your gymnasium into two useful areas
• Accordian folds are powered by 1/8" steel cables running through grommets vertically to a clean pocket at the bottom of the curtain with a weighted pipe giving nice clean lines
• Curtain has 1" outer edges that are doubled to eliminate fraying
• Lower section of the curtain is constructed of a solid 18 oz. vinyl and the upper section made of a 9 oz. mesh with 2" welded seams while meeting the California State Fire Code
• One-year limited warranty on materials and workmanship

Walk-draw
• The most cost effective way to divide your gym
• A 3" pocket lines the bottom edge of the curtain to accommodate the coil-proof chain as a weighted base
• Track is made from 16 gauge galvanized steel which holds ball bearing wheels for easy mobility
• Vinyl fabric lines the top edge of the curtain with grommets every 12" which attach to the carriers and s-hooks
• Storage space is 1 1/8" per foot of the curtain
• Curtain has 1" outer edges that are doubled to eliminate fraying
• Lower section of the curtain is constructed of a solid 18 oz. vinyl and the upper section made of a 9 oz. mesh with 2" welded seams while meeting the California State Fire Code
• One-year limited warranty on materials and workmanship

Slope Fold
• These custom curtains contour to the slope of your facility's roof line for maximum ceiling coverage
• Accordian folds are powered by 1/8" steel cables spaced every 9' running through grommets vertically and pass through overhead pulleys to a 3/4 hp electric winch
• Vinyl fabric lines the top edge of the curtain with grommets every 12". Shocks attach to these grommets on the top of the curtain by a chain and carrier rollers that sit in a 16 gauge steel channel track
• Lower section of the curtain is constructed of a solid 18 oz. vinyl and the upper section made of a 9 oz. mesh with 2" welded seams while meeting the California State Fire Code
• One-year limited warranty on materials and workmanship

Radius Fold
• Separates an outer running track from the playing courts inside a multi-purpose facility
• Accordian folds are powered by 1/8" steel cables spaced every 12' running through grommets which are spaced 1 1/2' vertically to a clean pocket at the bottom of the curtain with a weighted pipe giving nice clean lines
• Cables are attached to an angled drive pipe that rotates on roller brackets driven by a 3/4 hp electric winch to fold up the curtain
• The radius of the curtain shouldn't fall under 20'
• Curtain has 1" outer edges that are doubled to eliminate fraying
• Lower section of the curtain is constructed of a solid 18 oz. vinyl and the upper section made of a 9 oz. mesh with 2" welded seams while meeting the California State Fire Code
• One-year limited warranty on materials and workmanship

GYMNASIUM CONTROLLER

This control system is a major improvement over a conventional key switch used for each of your backstop winches, divider curtains, scoreboards, etc. With Spalding’s Gymnasium Controller you can control up to 42 devices easily from one location with just the touch of a button.

- Controls your gymnasium with easy-to-operate computer screens – 3 styles available
- One motor will run at a time, allowing for optimal observation of the equipment while in use
- Each relay panel can control up to 7 different motors with networking capabilities to run up to 42 devices from one location
- All low voltage displays are username and password protected to maintain equipment security
- Controller can operate: Ceiling-Suspended Backstops, Divider Curtains, Retractable Batting Cages, Height Adjusters, and Activate scoreboards, lights and sound systems

Note: All wiring should be completed by a licensed electrician. All wiring, conduit, components and installation techniques must meet all applicable local, state and national codes

- Programmable to store various operations such as basketball practice, volleyball or basketball games, gym mode, etc. Can store up to 10 scenarios
- Gray box not included

BATTING CAGE

- Designed for indoor use only
- Minimum ceiling height requirement of 17’
- Frame is constructed of 1 3/4” square x 14 gauge steel tubing and fits together using telescoping pipe and bolts
- Cage easily raises and lowers from the ceiling with a 7/8 hp electric motor
- Netting attaches easily to the frame with breech snaps
- Black net is made of a high strength polyethylene material
- Standard mesh size is 1 3/4” with 7/8” mesh available for golf

General Warranty Information

Spalding warrants its products against defects in material and workmanship. Without charge, Spalding will, at its option, either repair or replace any products shown to our satisfaction to be defective within the designated warranty timeframe, provided it is returned to the factory (after authorization), transportation prepaid. This warranty covers only products manufactured by Spalding and does not extend to transportation, installation or replacement charges incurred by customer; nor does it apply to products or components of another manufacturer used in conjunction with Spalding products according to the terms hereof and standards acceptable in Spalding’s industry. This warranty is exclusive and in lieu of any other express or implied warranties, including, but not limited to, any implied warranty of merchantability or fitness for particular purpose. Modification of Spalding products renders the warranty void and could create a risk of severe personal injury. Abuse, misuse, abnormal usage, faulty installation, vandalism, acts of nature, improper maintenance or unauthorized repairs are not covered under warranty. No obligations or liabilities exist on the part of Spalding for consequential damages arising out of or in connection with the use or performance of the products.
