Volleyball Antenna Clamps & Boundaries

Model # 408-166

SPALDING SPECIFICATIONS

DATE: 01/01/06

MODEL NUMBER: 408166

DESCRIPTION: Volleyball Antenna Clamps & Boundaries

GENERAL DIMENSIONS: This product consists of two top antenna clamps, two bottom antenna clamps and two boundary tapes. The antenna clamps are designed for compression fit on the bottom and top cables or ropes of a volleyball net. The boundaries are white vinyl sleeves that slide over the antennas.

CONSTRUCTION:

Clamps: The top and bottom clamps are constructed from molded white polypropylene. They are 3" wide and 2" high. The clamps secure to the net using a friction-fit "clip" mechanism. The antennas are press fit into a tapered hole in the bottom clamp and slide freely through the hole in the top antenna clamp. These clamps are designed to withstand thousands of installations. They are designed to be impact resistant.

Boundaries: The boundaries are constructed of 18 oz. white vinyl.

Shipping weight: 2 lbs.
